Just a line to let you know that he is still hanging on by a very very thin thread. and the doc. says he can't last long. But he still picks at me and teases when he is sick. Sleeps most of the time. We are in a beautiful country. Desert surrounded by Mt. on each side and some are covered with snow. Dried like crazy night before last. and woke up today morning with a blast of snow which didn't last very long. I think I'm going to have a heart attack. I will too again. Pot
